

## **CORRECTION**

---

# **Correction to: Disturbed Placental Imprinting in Preeclampsia Leads to Altered Expression of DLX5, a Human-Specific Early Trophoblast Marker**

In the article by Zadora et al, “Disturbed Placental Imprinting in Preeclampsia Leads to Altered Expression of DLX5, a Human-Specific Early Trophoblast Marker,” which published online before print September 13, 2017, and appeared in the November 7, 2017, issue of *Circulation* (*Circulation*. 2017;136:1824–1839. DOI: 10.1161/CIRCULATIONAHA.117.028110), a correction is needed. The funding source for co-corresponding author Laurence D. Hurst were not correctly specified.

The following sentence should be added to the end of the funding statement:  
“Dr LD Hurst is funded by ERC Advanced Grant ERC-2014-ADG 669207.”

The correction has been made to the current online version of the article, which is available at <https://www.ahajournals.org/doi/10.1161/CIRCULATIONAHA.117.028110>.
